

Every time you sip your morning tea,
perched on your favorite cane sofa
made by a child servant

You shouldn't just be
ashamed.

- If you are making a chutki clean your house
- If you are telling a child to carry garbage
- If you are making a child polish boots
- If you are employing children to make crackers
- If you are using a child to make silk
- If you are making an army of chotus serve food
- If you are making a child work when he should be in school

You should be scared
for it may land you in **jail.**

Join the movement

It's a criminal offence to employ any child below the age of 14.

Offenders would be strictly penalized and prosecuted.

Proudly display the sign of 'no child labor' and liberate childhood.

REPORT CHILD LABOR CALL **1098**

Campaign against 'Child Labor' released in December 2009

A logo indicating no child labor involved was adopted by various products and services as a matter of fair labor practices. Initially, the logo proposed was a "14+" logo which was modified to "no child labor" logo. This is a drive to educate as well as make businesses functional in eradicating this practice by inculcating a sense of pride in using this logo.
